INVITATION TO PARTNERS AND INVESTORS

Hon. Christine T. Norman Mayor of Bentol City Bentol City, Montserrado County, R

Dear Partners in Progress, We greet you warmly from beautiful Bentol, the capital City of Montserrado County, Republic of Liberia! This is a special invitation to you to consider becoming a partner with us as the Council Members of Bentol City Corporation (BCC), the people and I labor to restore, rebuild and develop our city . Like many other Liberian cities, Bentol is evolving from the negative and devastating effects of the 14 years of civil war and the recent Ebola Crisis. We are encountering numerous challenges related to financial and human resources; nevertheless, we are convicted that with a defined PLAN guided by a vision focused on opportunities and available resources, working in collaboration with national and international partners like you, we can create a viable city corporation that offers Promise, Opportunities and Prosperity to the citizenry, developing a model city of excellence that can be replicated across Liberia. Some of our overall Values and Driving Principles include the following: establishing and maintaining a comprehensive community health program that will enhance the quality of life for the citizens; advancing a system of quality and functional education on all level, formal and informal; developing a diversified program of renewable energy needed for general consumption and for industrial development; promoting culture and tourism; encouraging youth participation, recreation, and empowerment; attracting new residents and businesses; building a strong sense of community and CITY PRIDE. Thanks for your consideration in becoming a valuable partner of Bentol City. Kindest regards!
